

Accessibility

Extra-wide front door

- Extra-wide door, easy for loading/unloading the parts or jigs to/from the machine.

Extra-large side window

- Wide windows on both sides of the machine, easy for installation and cleaning.

Worktable Accessibility

- Ergonomic design for easy loading/unloading of workpieces to/from the worktable.

Easy access to the worktable

- Short distance between the operator and worktable, easy for operation inside the machine.
- Shortens the distance between the front of the machine and the worktable.

Maintainability

Light inside the machine

- Bright in the working area and tip of the tool.
- 2 high brightness fluorescent lamps are equipped inside the machine.

Convenient storage compartment

- A compartment is located under the operation cabinet to store items such as calculators, keys and pens. Very convenient.
- A hook is installed on the front edge of the storage compartment to place tools such as air guns and pliers.

Easy-to-use Air Gun

- A tube from the air compressing system is installed on the right-front of the machine with quick couplings for a compressed air tube and air gun.
- Operators can use the air gun to clean the residual chips on jigs or workpieces, simple and easy.

Coolant gun for machine cleaning

- The Coolant gun for machine cleaning can remove the residual chips attached to the machine, keep the cleanness of the machine and facilitate the maintenance works.
